

NAAMES Daily R/V Atlantis Mission Report

18 November 2015

Day 1 occupation of Station #4. Sea state moderate. Flight day. Conducted full suite of Day 1 morning operation measurements, including sea sweep, optics casts, and ecosounding. problems arose with the CTD cable which prevented evening deep cast. sea state increased during day, preventing sea sweep deployments after 14:00. deployed 1 profiling float and 3 drifters in a.m.
